#### Pre -Primary Jazz

For ages 5 to 7 (kinder-prep), our Pre-Primary Jazz is a structured class that teaches the basics of dance in an engaging way. Students learn the basics of dance technique, positions, and terminology.

#### Primary Jazz

For ages 6 to 8, Primary Jazz builds on the foundations learnt in pre-primary and students learn routines in various jazz styles.

#### Jazz 1

In Grade 1 Jazz students learn the basics of barre work, pointing, turning technique, isolating parts of the body and building strength

#### Jazz 2

In Grade 2 students expand on their basic turning technique, kicks, pas de bourrée and work on strengthening core muscles for floor work (including splits) and jumps. They begin learning more complex combinations in various jazz styles that promote speed and accuracy of steps.

#### Jazz3

By Grade 3 students have learnt and mastered the foundations of dance and are beginning to expand their repertoire of jumps, floor work and isolations. They begin to learn different turning techniques and styles of dance.

#### Jazz 4

By Grade 4 students expand on their repertoire of jumps and turning sequences. In this class they master directional sequences, outside and inside pirouettes, layouts and learn strong combinations in different jazz styles.

#### Jazz 5

In Grade 5 Jazz students learn to control their splits, build on strength for high kicks and continue to expand their jété and turning sequences. They learn more advanced combinations and work on control

#### Elementary Jazz, Intermediate & Advanced Jazz

Senior students have mastered turning, jumping and more complex steps. By these grades they learn to control their leaps, kicks and tucks, work on back flexibility and learn continuous turning sequences. Their combinations are fast, and students learn to really perform in their own style. If you are a returning student, please talk to your teacher about class placement.
