TECH STEPS
DANCE STUDIO

Group	Tuesday
Acro A	4:30 – 5:30pm
Acro B	5:30 – 6:30pm
Acro C	5:30 – 6:30pm

Acrobatic Dance is a genre based on gymnastics and acrobatics, but with a focus on transitions and short sequences that compliment dance routines. Our trained teachers work with children to develop their progressions and holds safely and individually. Classes are limited to 8 students with two or three teachers with a huge focus on safety. Classes are only offered to existing students enrolled in another genre. i.e. they cannot be taken as a student only class due to insurance reasons around fitness and ability levels.

Students just starting will work on their flexibility and strength in basic steps such as lotus position and bridges. We work on tumbling and exercises to build muscle. As they progress, they work on movement through different positions with an emphasis on safety and teacher assistance. Once students have mastered basic positions and can demonstrate their own body awareness and safety, we start with lots of teacher assistance and work towards independent movements and adaptations of skills such as walkovers, limbers, and aerials.

You will need to contact us in regards to placement as all students will begin in Acro class A and progress when they are ready.

Uniform

Girls: Blue Leotard or top, black shorts, hair off the face.
